## KEY FEATURES

### TECHNOLOGY

NET is a Line Interactive Step-Wave UPS that **protects** your devices **from many dangerous disturbances on the mains**. The AVR device, that it includes, shields them from a number of interferences and reduces to a **minimum the use of the batteries**. This creates a double benefit: maximum autonomy always available and a longer battery life. The UPS of the BLACK KNIGHT Series are classified as VI-SY-133 according to the EN 62040-3 European Norm.

### COMPLETE

NET is also equipped with microchip control, USB port and LAN/FAX protection. It is **completely designed in Italy** and made out of high quality electronic components. Besides, the metal case of the NET **isolates it from electromagnetic interferences**. NET is a simple and effective answer to your continuity needs in networking rack installations.

### PRACTICAL

NET can be installed even in **small rack cabinets**. It features 4 Schuko outlets and 4 IEC 10A outlets on the front panel (2+2 filtered and 2+2 protected by UPS). These aspects make the Net a very practical and easy to use UPS in all rack environments and especially in network rack cabinets.

## CUSTOMIZATIONS

- Tropicalization
- REM

## ACCESSORIES

- EPO

**2 YEARS WARRANTY - Batteries Included**

NET 600

<b>Model</b>	<b>NET 600</b>	
<b>Power (VA/W)</b>	600/360	
<b>Connections</b>	<b>input</b>	cable with IEC 10 A to schuko plugs
	<b>output</b>	2x IEC 10 A + 2x schuko through UPS 2 x IEC 10 A + 2 x schuko filtered only
<b>Interface</b>	<b>communication</b>	USB
	<b>display</b>	LED
<b>Regulations</b>	EN 62040-1 / EN 62040-2	
<b>Size (WxDxH) mm</b>	440 x 320 x 85	
<b>Weight (net/gross) kg</b>	9/10	

## KEY POINTS... RECAP:

- 1 - NET grants great protection against mains' disturbances
- 2 - It enhances the life of the batteries and maximizes the available autonomy
- 3 - It is completely designed in Italy and it is equipped with microchip control, USB port and LAN/FAX protection
- 4 - Its resistance to hostile environments can be increased with the tropicalization treatment
- 5 - It is particularly suitable for installations in small rack wall cabinets and customizable with useful accessories designed for the most demanding networking installations
